TAKE IT EASY, TAKE IT ANYWHERE

Every journey can be the beginning of something. A valuable experience, a happy coincidence or a shared memory. And with the versatile ŠKODA KAROQ, you can make those journeys comfortably. With its unmissable SUV styling, the KAROQ is as practical as it is head-turning. Its compact proportions are underlined by a distinctive front grille and all-round protective elements. LED illumination and eye-catching alloy wheels complete the impressive exterior.

Step inside, and you'll be welcomed by customary ŠKODA offerings like spaciousness, all-you-can-have connectivity features and reassuring assistance systems. And for those of you looking for more adventurous detours, the KAROQ also comes with an optional 4×4 drive.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

A LANDMARK ON ANY ROAD

With its robust body with protective features and higher ground clearance, the KAROQ invites you to venture off the beaten track. At the same time, its compact dimensions, sleek lines, and stylish wheels accentuate the car's ambition to be a great urban SUV.

STYLE AND FUNCTIONALITY

The car's front features newly designed elements, such as the grille, headlights, bumper with a spoiler, and more. You'll also find air curtains in the front bumper, designed to reduce the air resistance, which streamline airflow around the front wheels and the body sides.

FULL LED MATRIX HEADLIGHTS

The newly shaped KAROQ headlights are available in two types in terms of functionality. Equipped with LED lights, both types offer high performance and high energy efficiency. The SPORTLINE comes with full LED Matrix headlights, giving the driver maximum light power without dazzling other road users.

TOP FULL LED TAIL LIGHTS

The tail lights, supplied in two versions, have also been innovated both in terms of shape and technology. Fitted with animated turn indicators, they significantly improve the visibility of your car for other drivers. In addition (depending on surrounding light intensity), when you lock and unlock your car, the welcome effect activates the animation feature.

SUV SIGNATURE

The new KAROQ evokes a sense of strength and security greatly enhanced with a newly shaped robust rear bumper with black diffuser. Depending on the trimlevel, the new KAROQ can also feature an extended roof spoiler which underlines the car's distinctive appearance while improving its aerodynamics. With its higher ground clearance, the vehicle can travel off the tarmac regardless of the type of drive selected. If you are looking for the best possible off-road capability, we recommend the 4x4 SPORTLINE.

INTERIOR DESIGN

SPEND HOURS IN ONE PLACE

Inside the car, spaciousness meets sophisticated style and modern technology. The interior boasts new upholstery and décor options (including the Eco package) and a number of practical equipment to increase your comfort and safety.

DIGITAL DASH - ENTRY DIGITAL INSTRUMENT PANEL*

The new KAROQ features an entry Digital Instrument Panel with clearly readable graphics, which takes all the information you need and puts it where you need it most – in your field of vision.

VIRTUAL COCKPIT - DIGITAL INSTRUMENT PANEL

The Virtual Cockpit, standrd in SPORTLINE, displays onboard computer specifications in combination with other information, such as navigation. You can choose from five layouts (Classic view shown) controlled via the View button on the steering wheel (Optional for Ambition and Style).

* Available later in 2022.

LED AMBIENT LIGHTING

The ambient lighting available in SPORTLINE allows you to choose one of the ten colour options for the dashboard and front and rear door lighting. The selected colour will also appear in the background of the Digital Dash. The front and rear foot area illumination, supplied as part of the ambient lighting, comes in white.

ECO PACKAGE (OPTIONAL)

Enjoy the unique combination of attractive design and environmental friendliness. The car's interior, equipped with the Eco package, including specific upholstery and décor, offers high comfort while strongly reflecting our commitment to sustainable development.

ECO PACKAGE (OPTIONAL) - UPHOLSTERY

For the most part, the distinctive upholstery is made from recycled materials. It comes in a combination of fabric/Suedia/leatherette.

ECO PACKAGE (OPTIONAL) - DÉCOR AND DOOR ARMREST

The interior equipped with the Eco package features exclusive décor on front and rear doors. The front door armrests covered in Suedia are pleasant to the touch and perfectly match the seat upholstery.

CONNECTIVITY

ŠKODA CONNECTIVITY

SMARTLINK

With the SmartLink, the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with Apple CarPlay or Android Auto, which are also available wirelessly.

AMUNDSEN INFOTAINMENT

The AMUNDSEN navigation system available in the STYLE and SPORTLINE, is controlled via a full-glass 8-inch multi-touch and gesture-control screen.

**SIMPLY
CLEVER**

ŠKODA'S LITTLE HELPERS

Life is easier when the equipment is practical. The new KAROQ offers plenty of smart storage space and other helpful details that make everyday journeys more enjoyable.

DRIVER'S STORAGE BOX

The driver can utilise a practical tilting storage compartment located directly below the steering wheel.

GLOVE COMPARTMENT

The closed storage compartment, which can be air-conditioned, is located in the lower part of the dashboard by the front passenger.

STORAGE COMPARTMENT

The storage compartment in the centre console of the KAROQ SPORTLINE enables wireless charging alongside the wireless connection to Smartlink. Two USB-C data ports located beside the storage compartment allow you to

LIQUID RESERVOIR

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible but also has an integrated funnel.

A high-angle, rear-quarter view of a bright yellow car with its trunk open. The interior is visible, showing two rows of dark grey or black seats. The front seats have a modern, bucket-like design. The rear seats are also visible, with a fold-down mechanism on the right side. The dashboard and center console are visible through the open trunk. The car is parked on a dark asphalt surface. The text "COMFORT AND SPACE" is overlaid in large, white, bold, sans-serif capital letters on the left side of the image.

**COMFORT
AND SPACE**

COMFORT IS YOUR CO-DRIVER

Indulge yourself even when driving. Modern technologies, remarkable roominess, and a host of practical details will turn your everyday journey into a luxury trip.

WELCOME LOGO

The LEDs on the front doors' underside, projecting the ŠKODA inscription, illuminate the entry area.

KESY

You will quickly get used to the convenience of KESY (the Keyless Entry, Start and exit System), which allows you to lock/unlock your car and start the ignition/switch off the engine without inserting the key.

JUMBO BOX

The spacious Jumbo Box storage compartment is housed in the front armrest. You can, for example, store your electronic items safely inside. The Jumbo Box can also be equipped with a coin holder and two drink holders with Easy Open function.

ADAPTIVE CRUISE CONTROL

The driver's comfort during long motorway journeys is enhanced by the Adaptive Cruise Control, which operates up to speeds of 210 km/h. Available in STYLE and SPORTLINE.

**REAR ARMREST**

When the middle rear seat is not occupied, the armrest with drink holders can be folded down.

OPTIONAL FOLDABLE TABLES

The comfort of the passengers in the rear seats can also be increased thanks to the optional foldable tables, which can be built into the backrests of both front seats.

FOLD IT. MOVE IT. REMOVE IT

The optional VarioFlex rear seating system allows you to customise the interior according to your current situation. It is comprised of three separate rear seats. You can fold each one down independently, as well as remove them completely.

VARIOFLEX OPTIONS

To enlarge the luggage area, you can tilt all the rear seats towards the front seats (see the left seat). This position also allows you to remove them easily. This can be done single-handedly and does not require the use of any tools.

VARIOFLEX – ALL SEATS FOLDED DOWN

The luggage compartment, with a basic volume of 588 litres, can be extended up to 1,605 litres by folding the rear seat backrests down.

VARIOFLEX – ALL SEATS REMOVED

If you completely remove the rear seats, you gain a luggage area with a capacity of 1,810 litres.

NET PROGRAMME

The practical nets reliably prevent your things from moving around. Plus, you can clearly see where you have put everything.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make dirty, and easily turn it over to utilise the washable rubber side when required.

SAFETY

EMERGENCY ASSIST

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

ADAPTIVE CRUISE CONTROL

Using a radar device, the Adaptive Cruise Control system (standard in STYLE and SPORTLINE) automatically keeps a sufficient distance from vehicles moving ahead (max 160km/h or 210km/h), dynamically, depending on the movement of the vehicles ahead or on a driver-defined safety distance. Besides the speed, the driver can also progressively configure the distance as well as the dynamics of the control on the operating lever of the steering wheel. The system increases driver comfort and driver

LANE ASSIST

Lane Assist can tell when you stray from a lane unintentionally. The Lane Assist system works in conjunction with a multipurpose camera to recognise lane markings on the road, including yellow lines during roadworks, traffic cones, and other roadside or lane borders.

FRONT ASSIST

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

MATRIX BEAM FUNCTION

The full LED Matrix headlights available in the SPORTLINE feature matrix beam function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the matrix beam function responds to the traffic situation and turns off only some segments of the light. Other segments are turned on and illuminate the road. In addition, thanks to this function, you are not blinded by reflective materials on traffic signs, for example. The matrix beam function also uses information from the navigation system, so the high beams will only turn on when you are out of a built-up area.

CREW PROTECT ASSIST

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts. The new state-of-the-art version of the system can use radar sensors both in front and in the rear.

SAFE HAPPENS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can equip your car with up to nine of them.

FRONT DRIVER AND PASSENGER AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These airbags (shown together with the activated head airbag) protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

PERFORMANCE

PERFORM ON ANY STAGE

DYNAMIC CHASSIS CONTROL (OPTIONAL FOR SPORTLINE)

Enjoy the high performance of your car in maximum comfort and safety. The optional Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. As part of the infotainment menu, it allows you to select one of three modes according to your specific requirements: Comfort, Normal or Sport.

All the engines on offer have many things in common. They are powerful, economical, and meet strict emission standards. This makes the KAROQ feel as much at home in the city as it is in the wild.

ENGINES

You can choose between the 110 kW, front-wheel drive and the 140 kW output, with 4×4 drive.

SPORTLINE

FOR THE SPORT CALLED LIFE

They say there is no rest for the restless. But the new ŠKODA KAROQ SPORTLINE is certainly a comfortable way to unleash your active ambitions. And with the 2.0 TSI/140 kW 4×4 engine, driving to your favourite outdoor activity will be as exhilarating as the sport itself.

STYLE AND FUNCTIONALITY

The bumpers in the SPORTLINE design are accompanied by black exterior elements, such as front grille frame, external side-view mirror caps, window frames, and roof railings. The dynamic appearance of the car is further enhanced by the extended roof spoiler, inscriptions in black on the 5th door (such as ŠKODA, the model name, or 4×4), black rear diffuser, and 19" anthracite (shown) alloy wheels. In addition, the full LED Matrix headlights come as standard.

SPORT MODE IS ALWAYS ON

The dynamic exterior is perfectly matched by an equally impressive black interior that combines sporty style and elegance. It includes, among other things, front sports seats, a sports steering wheel with SPORTLINE plaquette, upholstery with ThermoFlux function, distinctive décor, LED ambient lighting, and much more.

FRONT SPORTS SEATS

The front sports seats provide maximum comfort even during a dynamic drive. Thanks to the specific fabric upholstery with ThermoFlux function, which ensures more breathability, the passengers can enjoy maximum comfort in all climatic conditions.

SPORTS STEERING WHEEL

Your driving pleasure is enhanced by the multifunctional 3-spoke sports steering wheel in perforated leather, with silver stitching and an original SportLine plaque. The optional Virtual Cockpit, which can display onboard computer specifications in combination with other information, offers five layouts with specific graphics controlled via the View button on the steering wheel. In addition, the SportLine version features special graphics for Sport View (shown).

TRY A NEW SPORT

CUSTOMISATION

ACCESSORIES

MAKE YOUR KAROQ YOUR KAROQ

Accessories aren't just fashion fads. With ŠKODA Genuine Accessories, you can transform your car by expanding its practicality, safety, and purpose, and make it a lot more suitable for your specific needs.

FOOTBOARDS

Made from stainless steel, this accessory is designed to stand out and make your life easier when loading various objects on the roof. It is also fitted with an anti-slip rubber liner to increase your safety.

FRONT AND REAR MUD FLAPS

The front and rear mud flaps protect the lower areas of the vehicle body from dirt and damage caused by stones and debris striking them. Mud flaps are useful especially in winter, when the corrosive salt that is spread on the roads generally sticks to the mud flaps rather than to the vehicle body.

SMART HOLDER COMFORT PACK

There are many reasons why drivers love ŠKODA vehicles. Some people appreciate the practicality, others admire the family virtues, and some are impressed by the timeless design and comfort. We have prepared packages to help you use your car's space according to your varied needs. Enjoy your very own comfort zone wherever you go. The Comfort Pack offers many smart solutions to make your business and family trips even more pleasant.

BIN FOR DOOR PANEL

The stylish waste bin, which comes as part of the Comfort Pack, is an elegant solution for dealing with rubbish in the car. It is effortless to use. The lid makes sure that any odour stays inside the bin along with your rubbish.

SMART HOLDER – MULTIMEDIA HOLDER

The holder for an external device, which can be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

SMART HOLDER – HOOK

Handbags and backpacks don't have to take up space on the back seats. Hang them from the smart holder hook that is fixed to the front headrests.

SMART HOLDER – HANGER

The clothes hanger, which can be mounted on the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

ALUMINIUM DECORATIVE DOOR SILL STRIPS

Four-piece aluminium door sill covers with KAROQ inscription, which perfectly follow the contours of the vehicle, are an original feature with aesthetic as well as practical functions.

DECORATIVE DOOR SILL STRIPS WITH ALUMINIUM INSERT

Four-piece decorative door sill covers with aluminium inserts are an accessory that can be used to enhance your vehicle's aesthetics. They also protect the paintwork around the door sills from dirt.

ALL-WEATHER MAT OVER TUNNEL

This accessory, which is a practical addition to the rear all-weather mats, protects the surface of the centre tunnel from dirt on footwear worn by rear passengers.

FOOTREST "LOUNGE STEP" 2PCS

The footrest helps to protect the floor while reducing the interior noise. Easy to remove, clean, and reuse.

TEXTILE FOOT MATS PRESTIGE – DOUBLE NUBUCK

They aesthetically complement the modern interior design and outline the footwell contours.

ALL-WEATHER FOOT MATS

Thanks to their practical, smart design and material they optimally protect the floor from mud, dirt, and water.

NETTING SYSTEM – GREY

The set of three nets is a practical and attractive accessory. It secures transported items in place and prevents them from sliding around while the vehicle is in motion.

BOOT PROTECTION – FOLDABLE

This foldable boot protection covers the floor and all sides of the luggage compartment of the ŠKODA KAROQ. The folding luggage compartment protector is made of black waterproof fabric, so it reliably prevents moisture getting through. It also protects against damage.

BOOT DISH WITH RAISED EDGES

This accessory protects the luggage compartment from moisture and dirt and is therefore a practical solution for any vehicle.

DOUBLE-SIDED BOOT MAT

Adapt your luggage compartment to your needs at any time. This double-sided mat is tidy and elegant when you turn it textile side up. The other, rubber side is there for when you need to transport items that might get the car's interior dirty or damage it. You're ready for any situation!

SUN SHADES FOR TAILGATE AND BOOT SIDE WINDOWS

This useful and easy-to-fit accessory provides protection from sun as well as concealing the cargo area from prying eyes.

SUN SHADES FOR REAR SIDE WINDOWS

This accessory for the whole year round protects you from harsh sunlight in the summer and provides greater privacy from passersby looking inside.

BABY MIRROR

With the baby mirror, you will always be able to see what your children are up to in the back. By the same token, it is calming for children to have visual contact with you. The baby mirror allows you to quickly check on your children while maintaining full control of the car when driving.

CHILD SEATS

Each type of child safety seat from the ŠKODA Genuine Accessories range undergoes a series of rigorous tests. You will find seats designed for children up to 36 kg in our comprehensive range.

TRANSVERSE ROOF RACK

Thanks to the lockable transverse roof rack, you can use other racks and holders from the ŠKODA Genuine Accessories range such as bicycle or ski carriers and ski or snowboard boxes.

SKI OR SNOWBOARD RACK

The lockable rack, which has passed ŠKODA's load tests and safety tests, is a simple solution for transporting your skis or snowboard on the car roof. It can carry 4 pairs of skis or 2 snowboards.

TOWBAR RACK FOR 3 BICYCLES

The rack is extremely sturdy, easy to fit, and easy to use – simply lift the bicycle up a little to secure it in place. It works with all types of tow bars and is available in 2- and 3-bicycle variants.

BICYCLE RACK

You can securely attach the lockable bicycle rack with aluminium profile onto the basic roof rack.

ROOF BOXES

Enjoy a larger capacity and easier loading with the ŠKODA roof boxes, which enable you to transport skis or snowboards, as well as bulky luggage, pushchairs, etc., that would not fit into the boot of a fully occupied car. All roof boxes feature an advanced aerodynamic shape and UV protection, ensuring that your box will always look new.

ROOF BOX – 400 LITRES

This lockable roof box for up to 6 pairs of skis or 5 snowboards features exceptional capacity, opening on both sides, and easier handling. The box is available in black or silver.

ROOF BOX – 380 LITRES

The lockable roof box with an aerodynamic profile for up to 5 pairs of skis or 4 snowboards features an optimised shape with a lower bottom, which positively affects driving stability and limits vibrations while minimising air drag and associated driving noise. The box is available in black, silver, and white.

WHEEL CARE AND STYLE PACK

COVERS FOR COMPLETE SET OF WHEELS

This set of high-quality polyester wheel covers enables easy wheel transport and handling.

Car wheels are like shoes. No matter whether the “shoes” of your ŠKODA are stylish, sporty or purely functional, our WHEEL CARE & STYLE PACK (wheel covers, valve caps, locking wheel bolts) offers a multitude of items which will make your wheels even more attractive and totally unique!

DECORATIVE VALVE CAPS

With tyre valve caps bearing the ŠKODA logo, ŠKODA Motorsport green or RS red emblem, your car will look stylish down to the smallest detail.

LOCKING WHEEL BOLTS

The locking wheel bolts supplied with a special adapter provide your vehicle with greater protection against the attempted theft of your wheels. All you need to do is swap one standard bolt on each wheel with a safety wheel bolt.

BOLT COVERS

Our offer includes decorative bolt caps for wheels with and without locking wheel bolts.
