

ŠKODA
SIMPLY CLEVER

THE NEW ŠKODA

KODIAQ RS

GO EVERYWHERE, QUICKLY

The new ŠKODA KODIAQ RS goes where no ŠKODA has gone before. To complement the most powerful TDI engine we've ever built, we added a 4x4 drive system with 20" alloy wheels for sporty handling, whether you're on the road or nowhere near it. Glide in comfort thanks to a lightning fast automatic 7-speed DSG, and an equally racy, leather-Alcantara®, sports interior. No matter where you're headed, the new KODIAQ RS will get you there. Quick.

That's Simply Clever. That's ŠKODA.

TAKE POLE POSITION AT TRAFFIC LIGHTS

The raw confidence of the KODIAQ is given a further boost in its RS clothing. At the core of its sporty DNA lies an eager 2-litre twin-turbo diesel engine commanding 240 hp (176 kW). This impressive power output is accompanied by a plentiful maximum torque of 500 Nm. Managing all this power with complete control is the 4x4 drive and the sophisticated chassis specifically designed for this car. Driving pleasure and comfort is further guaranteed with Dynamic Chassis Control.

GET YOUR HEART RACING, EVEN WHEN PARKED

Distinct bumpers in the body colour and glossy black elements such as the front grille frame, strips around the side windows, side-view mirror caps and roof railings lend the car its refined profile. The red brake callipers add a dash of ferocity to the elegance.

PERFORMANCE FOR YOUR EYES

Plenty of exterior features prove the car's dynamic personality. From the details such as RS badges on the front and rear over the LED lights to the unique wheels.

REAR VIEW

The rear lights equipped with LEDs feature the familiar C-shaped illumination. The exhaust pipe end pieces in chrome finish, specially tuned to produce the engine's sporty sound, accentuate not only the sporty look of the car, but also its powerful character. The dynamic sound boost system further emphasises the engine sound.

LED HEADLAMPS AND FOG LAMPS

LED technology comes as standard with the KODIAQ RS.

WHEELS

The distinctiveness of the 20" Xtreme anthracite-polished alloy wheels is further highlighted with red brake callipers.

MAKE LUXURIOUS PIT STOPS

Designed in exclusive black, the interior appeals to sport-minded drivers as well as the passenger who yearns for comfort. The dashboard features a remarkable décor in carbon look. LED ambient lighting running along the inside of the car offers ten appealing colour options. The attractive upholstery with original RS logo embroidered on the backrests comes in a combination of black Alcantara® and leather with red stitching. The front sports seats and black ceiling enhance the interior sports style. A third row of seats is optional.

TAILORED FOR THE TRACK

The high-end materials and sporty details emphasise the car's high-end capability, allowing you to fully enjoy its power, while staying confident in its exceptional handling and control.

DRIVING

The 3-spoke multifunctional leather steering wheel in sports design, decorated with red stitching and RS badge, lets you control the radio, phone and DSG. You will also find the Virtual cockpit control on the steering wheel. The impressive handling of the car is further enhanced with progressive steering. Requiring less steering input by the driver results in a much more dynamic driving experience, especially in the corners. Driving Mode Select, activated with the Mode button on the centre console, allows you to choose one of six driving modes according to your specific requirements: Normal, Comfort, Eco, Sport, Individual or Snow.

DSG AND PEDAL COVERS

The automatic 7-speed DSG (Direct Shift Gearbox) guarantees smooth and rapid gear shifts, resulting in maximum utilisation of the potential of the engine's torque. The combination of the DSG and 4x4 drive are a perfect match. The noble steel foot pedal covers are stylish and also enhance the sporty feel.

COCKPIT CONTROL

The Virtual Cockpit takes all critical driving data and puts it right in front of your eyes. While the infotainment system offers a convenient way to connect your phone to your car and interact with your world.

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

EMERGENCY CALL

The SOS call is made automatically during an emergency where the restraint system has been activated. This emergency system can also be activated manually by pressing the red button on the roof console.

WEATHER

Get the latest weather report for your current location, destination or anywhere else with detailed forecasts, including precipitation predictions and warnings.

Stay connected wherever you are. Being online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA CONNECT includes two service categories – Infotainment Online and Care Connect – making it your gateway to a world of unlimited communication possibilities.

PARKING POSITION

Retrieve the exact location of your car in large car parks from anywhere, by displaying the address on your mobile phone. You can also display the time of the latest parking position update and set the parking timer on your smartwatch.

DRIVING DATA

Information about your journey, such as average consumption, average speed, distance and journey time, is stored. You can display your personal driving data and have an overview of all your trips.

ONLINE TRAFFIC INFORMATION

Always take the best route: up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams.

SMARTLINK+

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also enables you to send car data via cable to your smartphone which gives you access to interesting information about your drive, like driving economy, driving dynamics or service information. (Visit our website for usage terms and compatibility information for SmartLink+.)
