A BRAVE NEW WORLD

The all-new ŠKODA SCALA is a bold step forward for the brand. Its sophisticated shapes create a striking play of light and shadow that blend timeless design with sporty character. Its dynamic silhouette is embraced by a practical spirit that makes the car the perfect partner for every stage of life.

The SCALA also offers abundant technologies uncommon in the compact hatchback segment. Advanced assistance systems and a new generation of infotainment mean you can stay safe without compromising on fun, on every journey.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

GIVE THE EVERYDAY A SPORTY JACKET

Good design agrees with the heart and the head. Like in the new SCALA. This compact hatchback with a sporty spirit represents the next phase of ŠKODA's design language, while emphasising the strong relationship this brand has with its own tradition and history.

FRONT VIEW

Distinguished exterior features like the front grille or sharply cut headlamps in the shape of an arrow give the car an authentic look with a strong identity. Crystalline elements etched on the headlamps allude to Czech crystal craftsmanship, a declaration of the brand's proud lineage.

BLACK FEATURES

To add a more sporty and individual signature to daily driving, the SCALA can be enhanced with the optional black panoramic roof, roof spoiler, glass extended over the 5th door and attractive 18" Vega Aero alloy wheels, which can have a considerable impact on the overall aerodynamic performance of the car.

AERODYNAMICS

Every edge, contour and dimension of the car has been created to optimise aerodynamics. A desirable balance between its width and height projects safety and reliability.

SIDE VIEW

Characteristic lines on the sides of the car enhance its dynamics as shaped by ŠKODA's design language. The impression is even stronger with SunSet tinted windows, which not only accentuate the attractiveness of the exterior, but also protect rear passengers from glare.

REAR VIEW

As a badge of honour, the ŠKODA name proudly embraces the 5th door. This marks the confidence of a brand that has transformed its design philosophy. In models equipped with darkened glass extended over the 5th door, part of the rear lights are integrated into the glass.

**BEST VIEWED
FROM ANY ANGLE**

**LIGHT
DESIGN**

REMAIN IN THE SPOTLIGHT

Light doesn't just illuminate. It inspires. The unique headlamps and slim long rear lights make the car instantly recognisable.

The crystalline lamp design with integrated LEDs represents a perfect blend of Czech crystal tradition and modern technology.

FULL LED REAR LIGHTS

The SCALA features horizontally designed rear lights where the familiar C-shape illumination has been updated with a modern twist. This original light signature is accompanied by perfect functionality. The top-end option comes with the full LED rear lights, which are fitted with animated turn indicators – for the first time ever on any ŠKODA. These not only indicate where the driver is about to turn, but also add dynamism to the car.

FULL LED HEADLAMPS

The top-end option is all about LED technology including corner function. The strip of LEDs for daylight driving positioned at the upper part of the headlamp lends the car its sporty charisma.

INTERIOR DESIGN

IT'S WHAT'S ON THE INSIDE THAT COUNTS

Stepping inside the SCALA is equally impressive. The well-appointed interior radiates with sleek design cues, exceptional spaciousness and cutting-edge digital technology.

STYLE AND FUNCTIONALITY

The SCALA's interior is furnished with quality materials and great craftsmanship. Multiple combinations of upholstery and décor mean you can give your car a unique personality.

Attractive design is also accompanied by perfect functionality.

The dashboard as well as panels in the door have a special soft surface resembling crystalline structures. This unique detail can prevent objects from slipping and in the future will become a typical ŠKODA feature.

VIRTUAL COCKPIT

The Virtual Cockpit displays on-board computer specifications in combination with other information such as navigation. You can choose from five layouts (modern view shown) controlled via the 'View' button on the steering wheel. The SCALA's Virtual Cockpit features a 10.25" display – the largest in the compact hatchback segment.

AMBIENT LIGHTING

Make your space more cosy and comfortable with LED ambient lights running along the dashboard. Your car can be equipped with white, red or copper lighting.

**SIMPLY
CLEVER**

THE CAR WITH AN IQ

The SCALA is equipped with a range of Simply Clever details that can handle all your needs. From loading your luggage or folding your towing device to adjusting the interior space to find room for big and small things, these thoughtful features take the headache out of travelling.

UMBRELLA STORAGE COMPARTMENT

An ingenious compartment is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

FRONT DOOR COMPARTMENTS

You will find a 1.5-l bottle holder in a spacious compartment in the front door. This is also where you can place a removable waste basket.

ELECTRICALLY-CONTROLLED 5TH DOOR

It opens and closes at the mere touch of a button on the remote control or in the driver's door, especially handy in unfavourable weather. You can also adjust the upper door position to suit your needs. A button for closing the 5th door is also located on the door itself.

ICE SCRAPER

The ice scraper, which is mounted on the fuel cap, can also be used to measure the depth of the tyre tread.

LIQUID RESERVOIR

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

DOUBLE FLOOR

The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

LUGGAGE COMPARTMENT

DON'T PACK LIGHT

Don't think twice about what to take or not. The generous luggage compartment capacity of 467 litres, and 1,410 litres after folding down the rear seats, puts this car at the top of its class. In addition there are many options for ensuring your stuff stays in its place, without damaging the car.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

NET PROGRAMME

One horizontal and two vertical nets increase the flexibility of the luggage space while firmly securing objects.

HOOKS

The robust hooks on the sides of the luggage compartment make your bags easier to transport and more secure.

NET UNDER THE COVER

This net under the luggage compartment cover can serve as a safe storage place for items that you would like to transport separately from other objects.

COMFORT

TRAVEL COMFORT CLASS

Whatever comfort means to you, you'll find it right inside the SCALA. Travel in total ease with smart details like power connectors and sophisticated infotainment with GPS. In other words, unmatched comfort in its class.

HEATED SEATS / USB

In cold weather, your friends and family will appreciate the heated rear seats, which are regulated by a separate control on the rear side of the front armrest. Two USB-C slots enable universal mobile phone charging.

PHONE BOX / USB

The practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving. Two USB-C ports located in a centre console allow you to easily connect your external devices without the need for dongles or adapters.
*Wireless charging standard on Style

RETRACTABLE MIRRORS

The automatically retractable external side-view mirrors fold in when the car is locked, thus protecting them against damage.

KESY

The car equipped with KESY (Keyless Entry, Start and exit System) or with the simpler version Easy Start features a Start/Stop button on the steering column.

CRUISE CONTROL

Practical Cruise Control or advanced Adaptive Cruise Control up to 210 km/h (see Safety chapter) are both available.

ŠKODA SOUND SYSTEM

Enjoy absolute sound clarity, whether it's music or the spoken word, on the Sound System developed by ŠKODA for the SCALA model. The system features ten speakers, including a central speaker in the dashboard and subwoofer in the luggage compartment. Among other features the sound can be adjusted according to how many people are in the car and where they are sitting via the All, Front and Driver profiles. The device offers a total power output of 405 watts.

HEATING FUNCTIONS

The heating function of the front windscreen, which quickly clears frost or steam, and heating of the multifunctional steering wheel are controlled via the infotainment system.

ELECTRICALLY-ADJUSTABLE DRIVER SEAT

For the best feeling behind the steering wheel, we offer you the electrically-adjustable driver seat.

AMUNDSEN 9.2" INFOTAINMENT

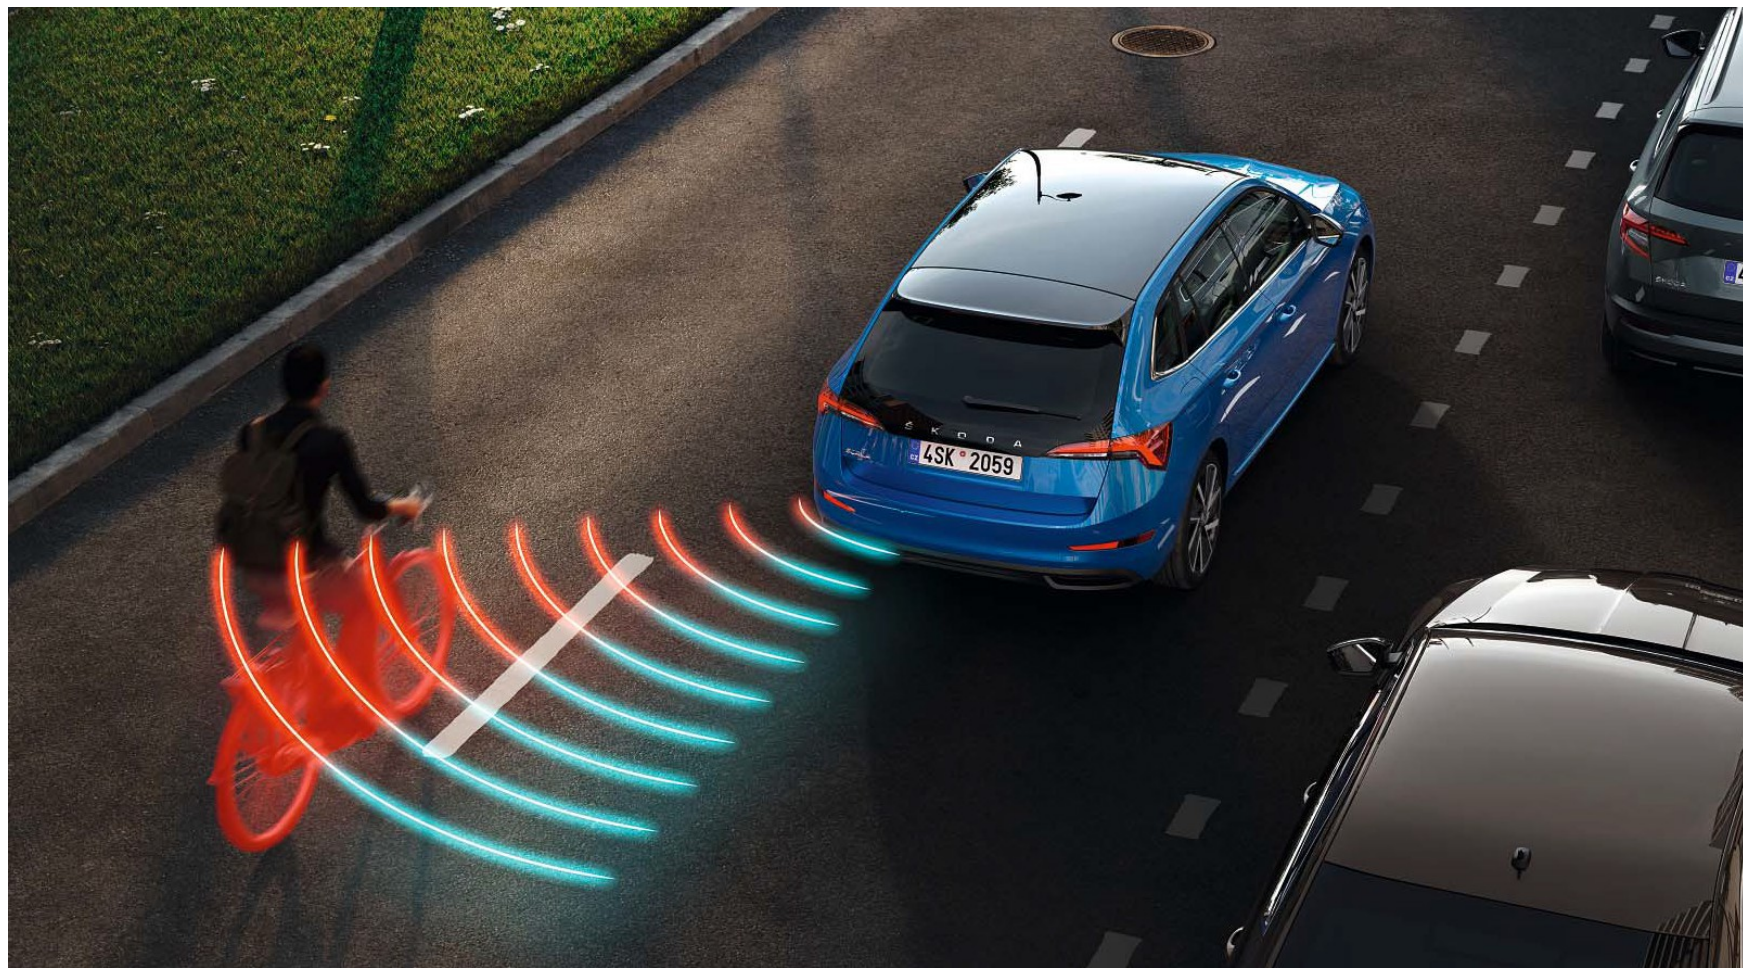

Attractive design is accompanied by perfect functionality. The new generation of infotainment comes with a display that's positioned high up on the dashboard, in the driver's immediate field of view. Below the display, it also provides an ergonomic wrist rest when operating the screen. The device offers not only convenient touch control, but also gesture control.

SAFETY

WE'LL WATCH YOUR BACK

Embark on any adventure with complete confidence. The new SCALA comes with plenty of assistants supporting your driving skills on the road, helping you with parking and even preventing collisions.

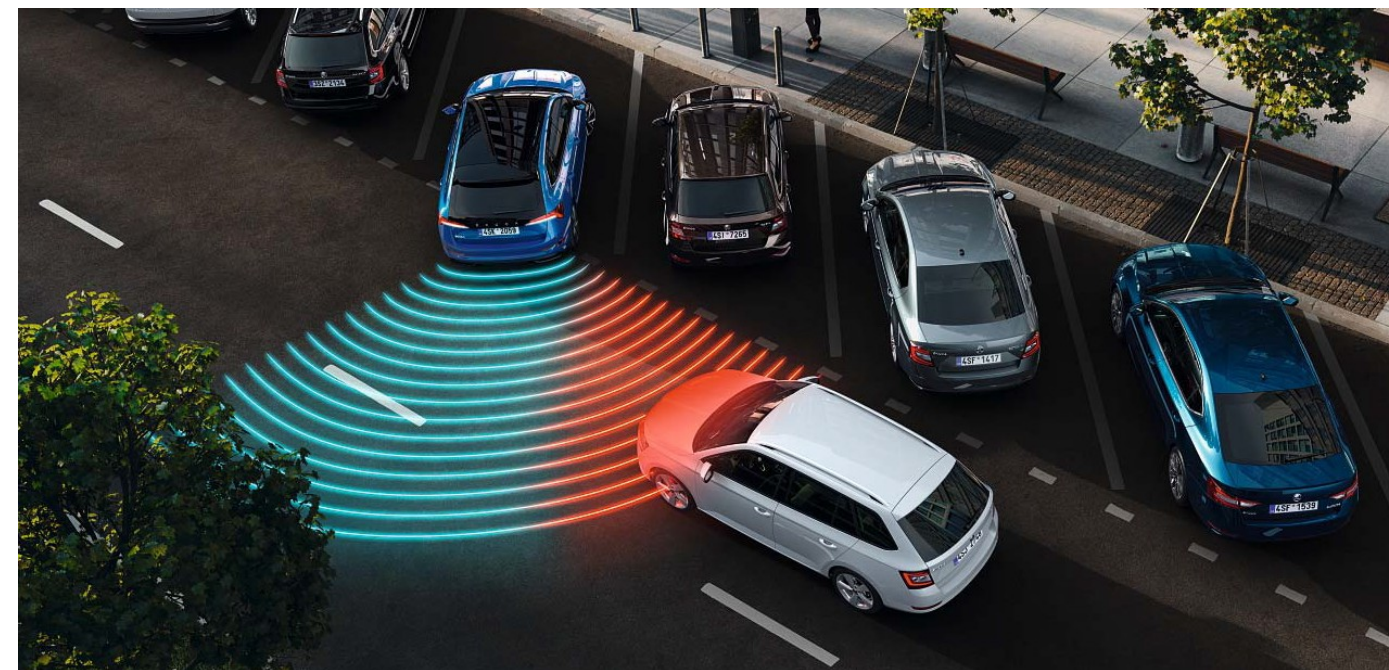

SIDE ASSIST

Using radar sensors in the rear bumper, Side Assist which can detect other vehicles and even less detectable objects like cyclists up to 70 m away, monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

*Standard on Style

REAR TRAFFIC ALERT

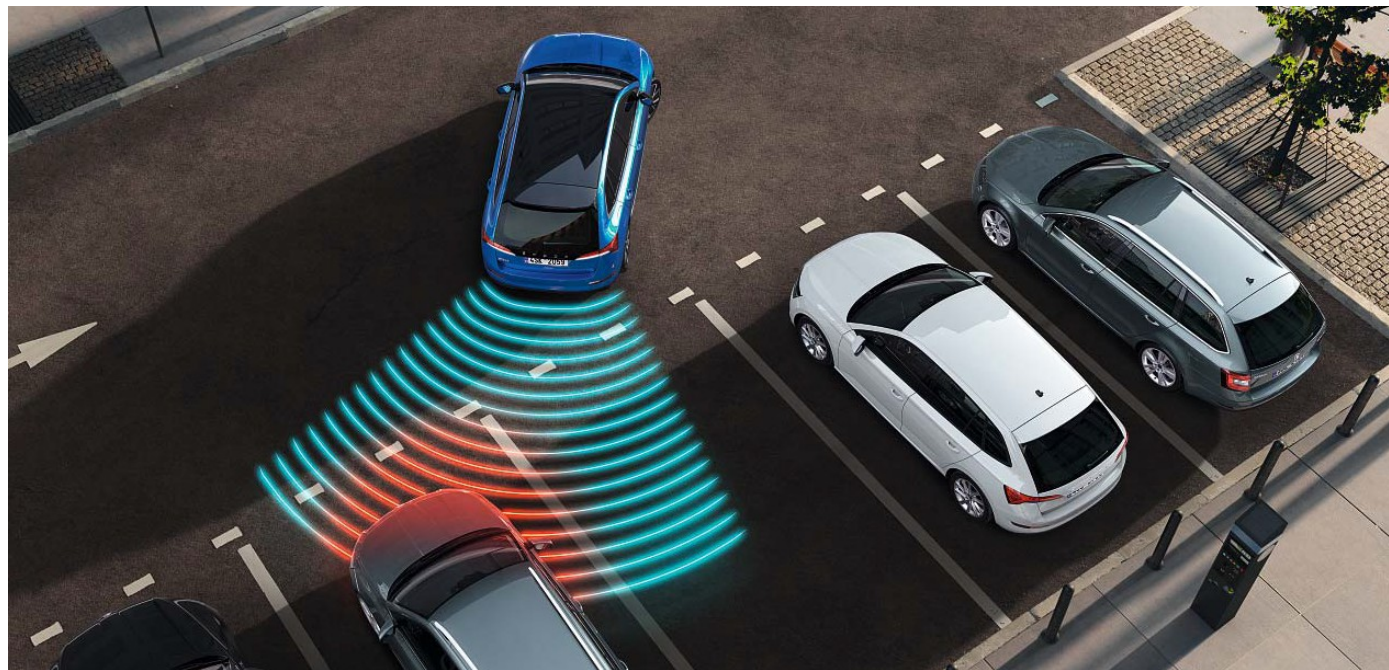

This assistant, which comes as part of the Side Assist system, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

MANOEUVRE ASSIST

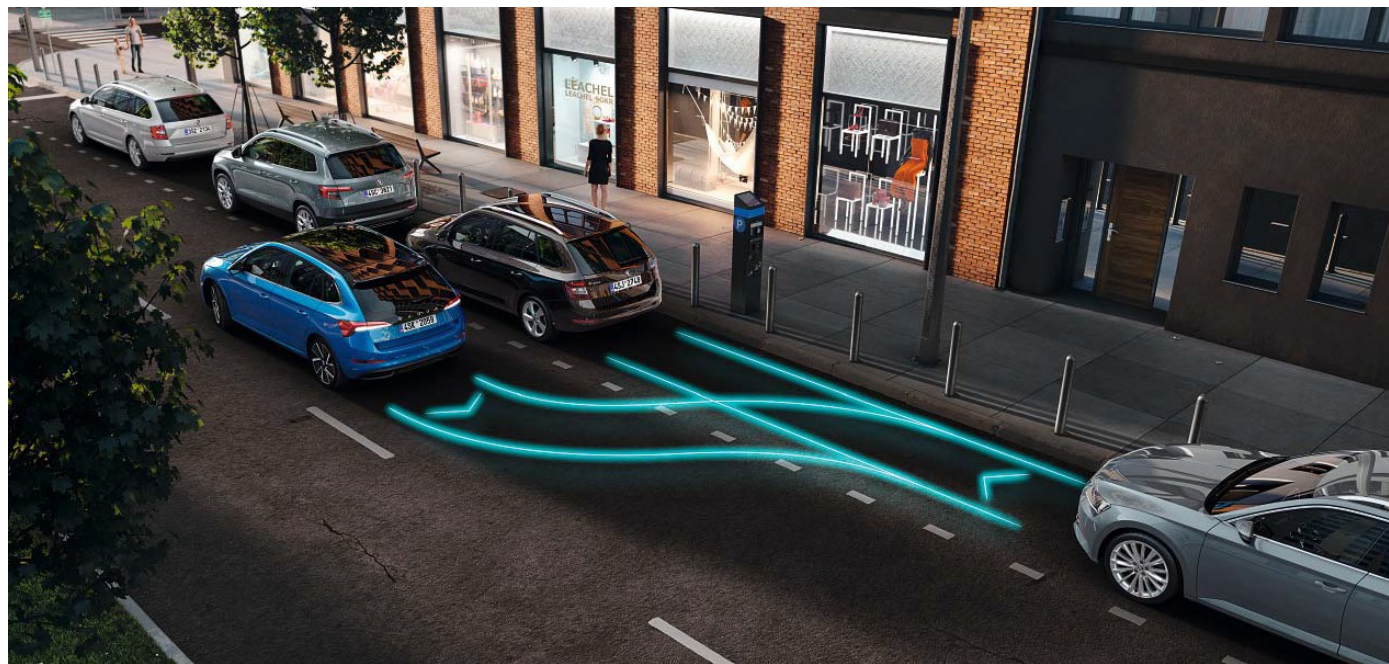

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 8 km/h). If an obstacle is detected, based on the distance from the obstacle and the car's speed, the system engages the emergency braking.

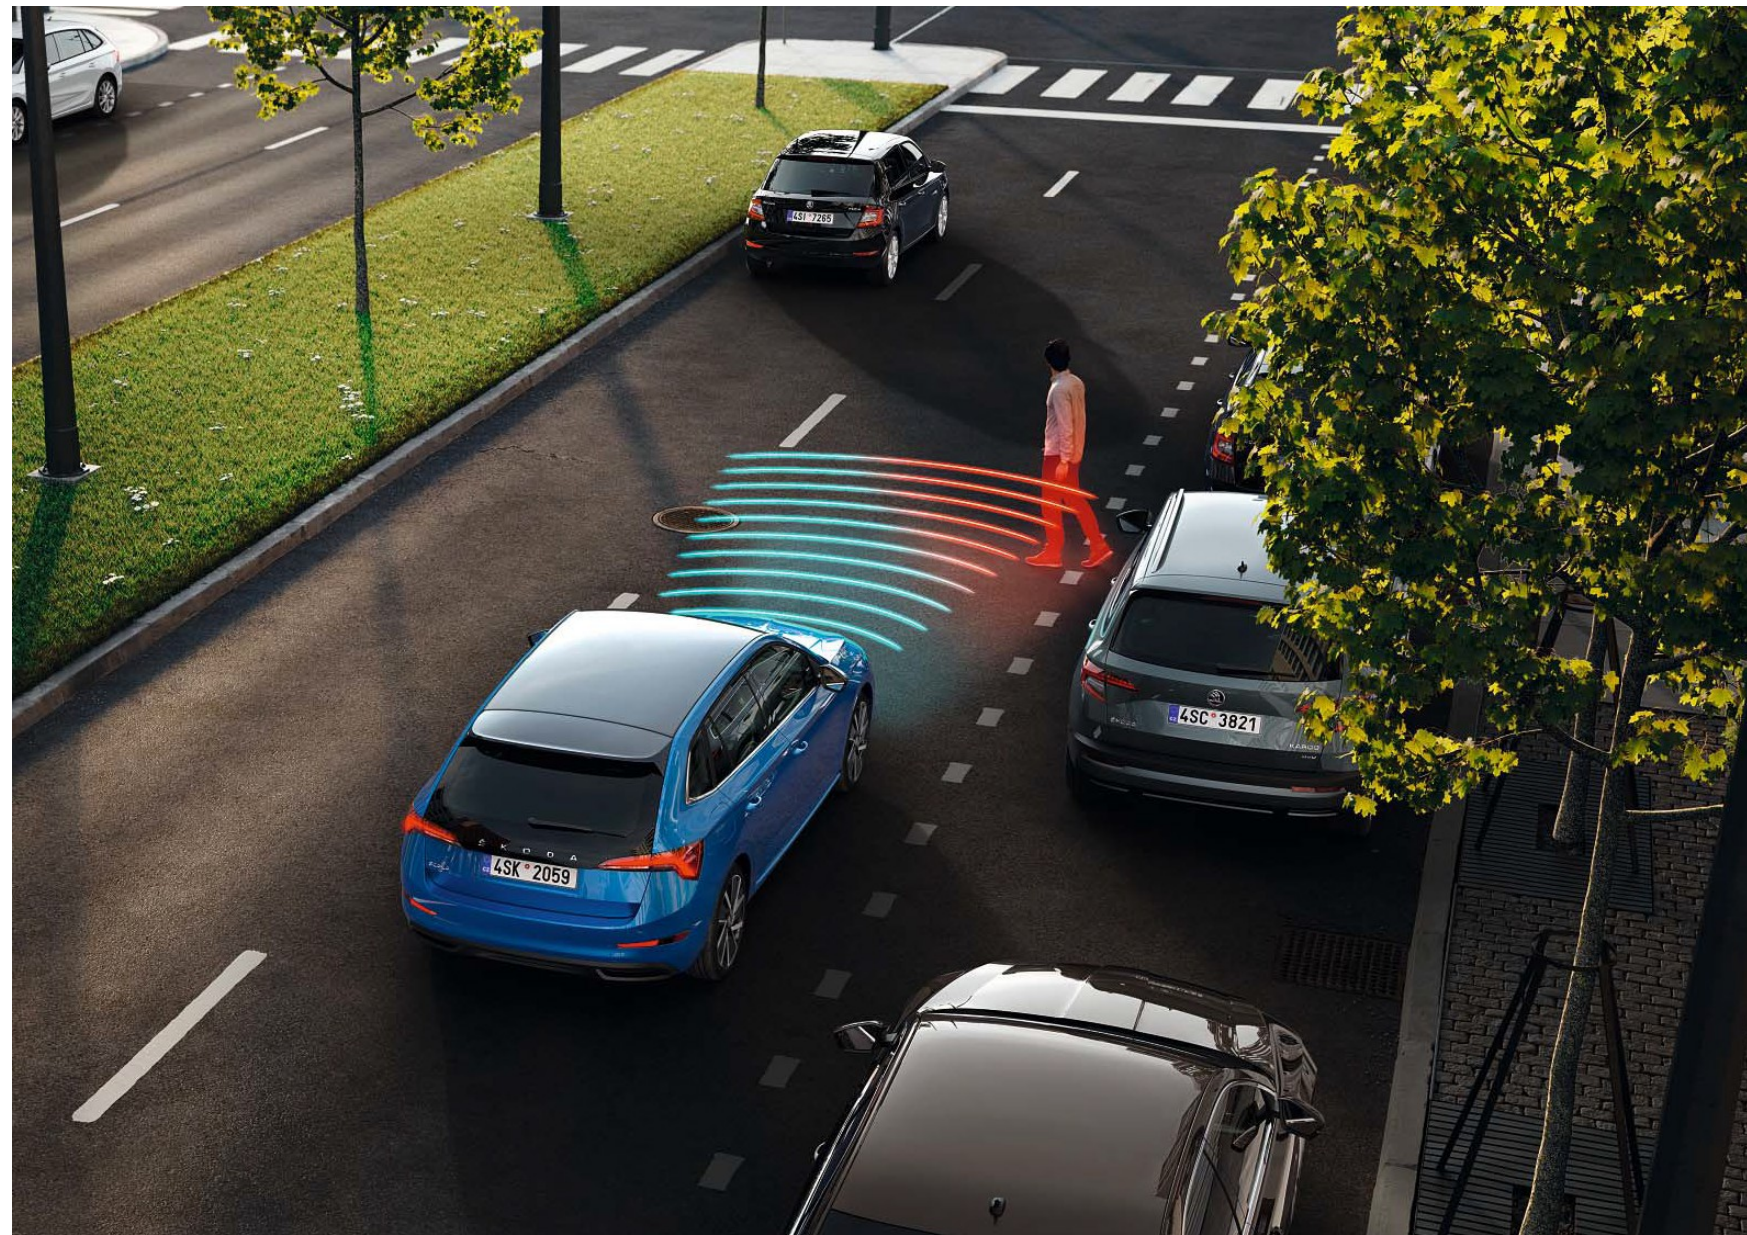

PARK DISTANCE CONTROL

Parking the SCALA is easier and safer with the parking sensors integrated in the front and rear bumper, which check the car's distance from any obstacles.

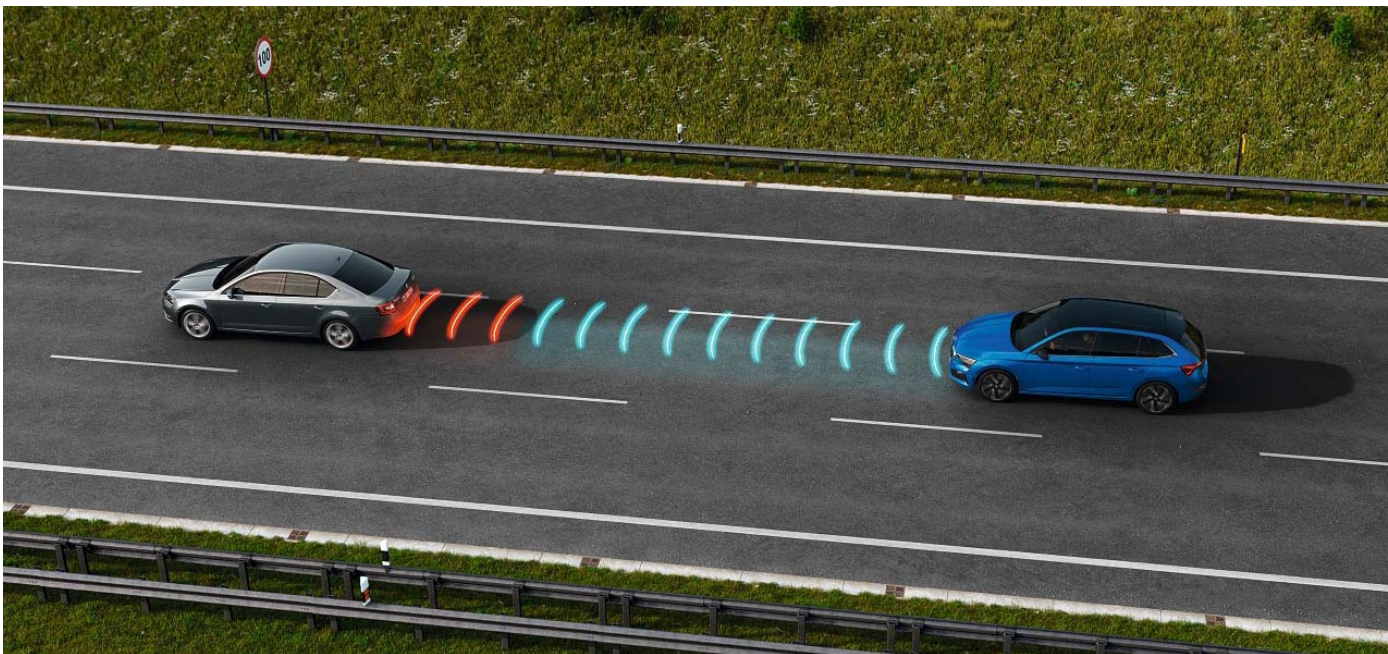

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking spot in a row of parallel or perpendicularly parked vehicles.

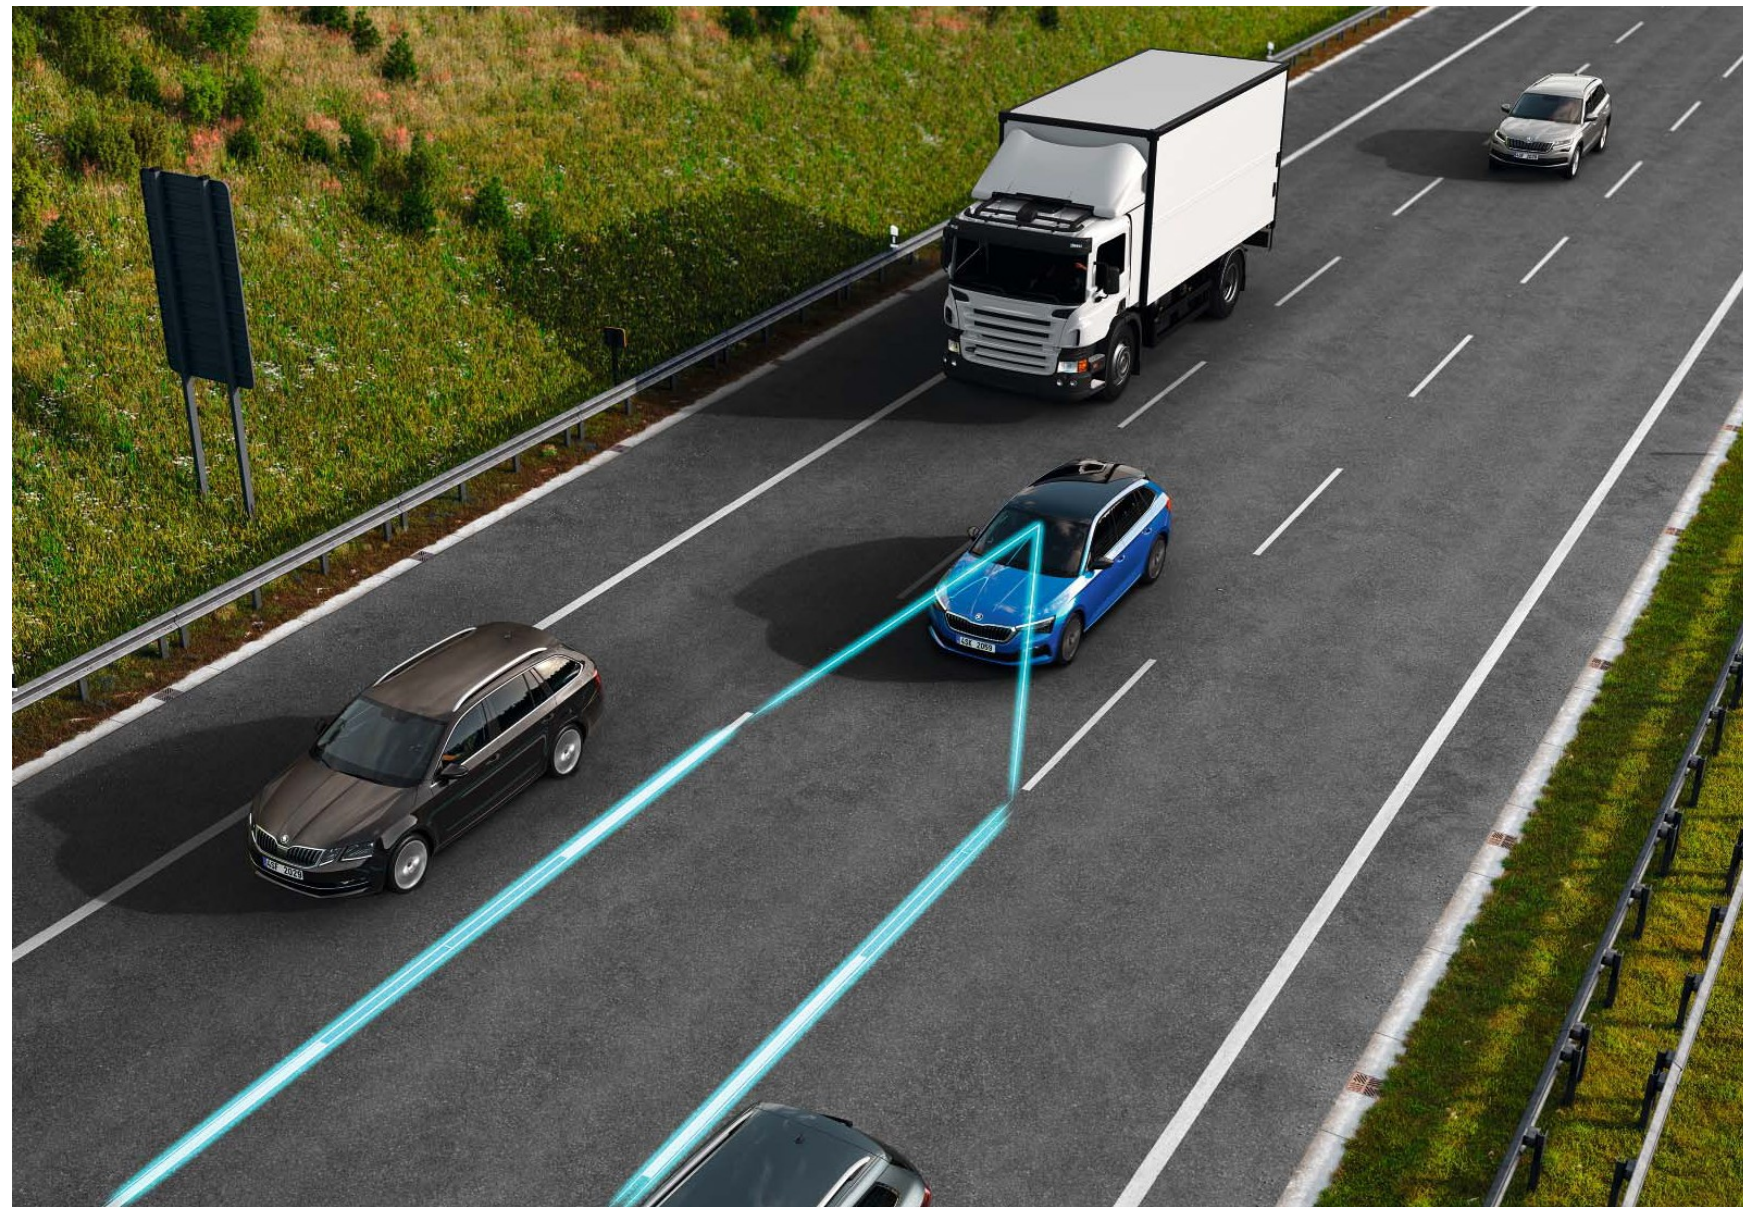

FRONT ASSIST WITH PREDICTIVE PEDESTRIAN PROTECTION

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The SCALA comes with Front Assist expanded with predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system, which operates up to speeds of 210 km/h, maintains a safe distance from vehicles in front of you.

LANE ASSIST

Operating at speeds above 65 km/h, this system can help to keep the car in the correct lane.

HIDDEN BODYGUARDS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can have your car equipped with up to nine of them.

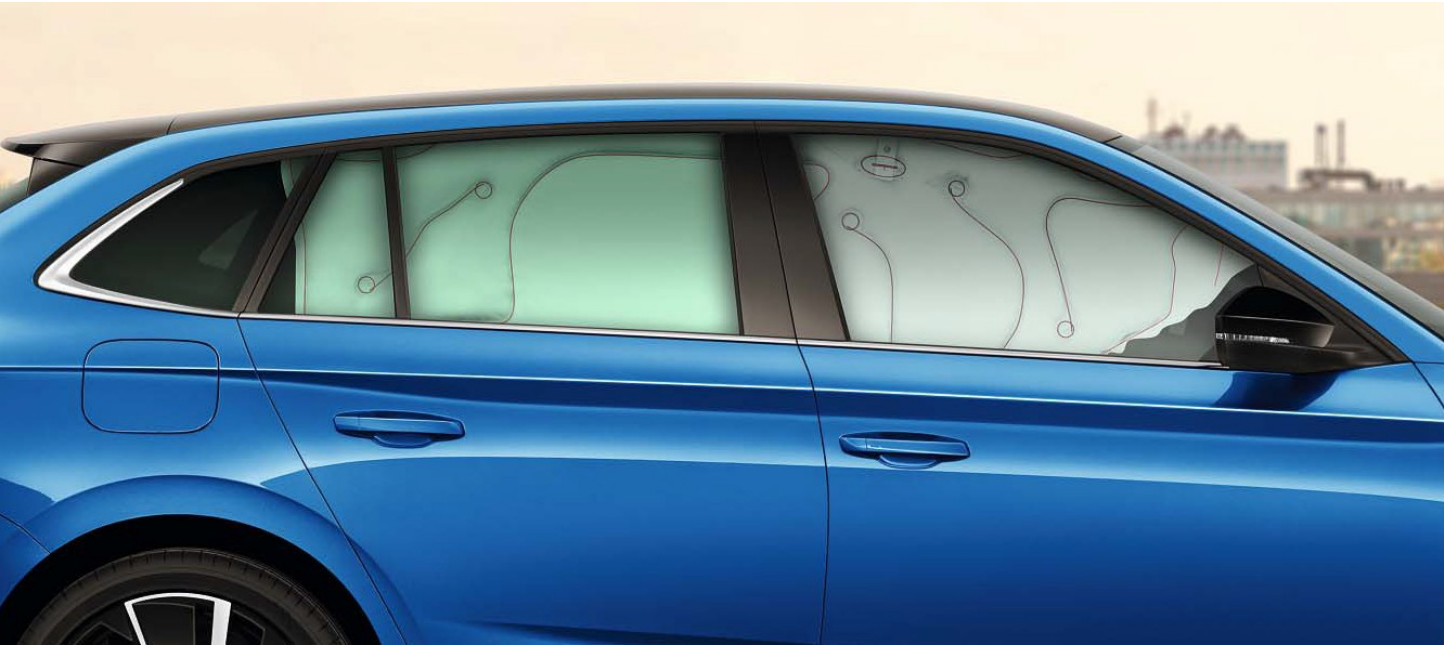

FRONT AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

FRONT AND REAR SIDE AIRBAGS

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

CUSTOMISATION

AMBITION

The standard equipment of the Ambition version includes external side-view mirrors and door handles in the body colour, fog lamps, Jumbo Box, umbrella compartment including ŠKODA umbrella, storage compartments under the front seats, sunglasses compartment, manual air conditioning, front seats with manually-adjustable lumbar support, 12V socket in the luggage compartment, and more.

ACCESSORIES

MADE BY ŠKODA, DESIGNED BY YOU

Accessories aren't just fashion fads. With ŠKODA Genuine Accessories, you can transform your car by expanding its practicality, safety and purpose, and make it a lot more suitable for your specific needs.

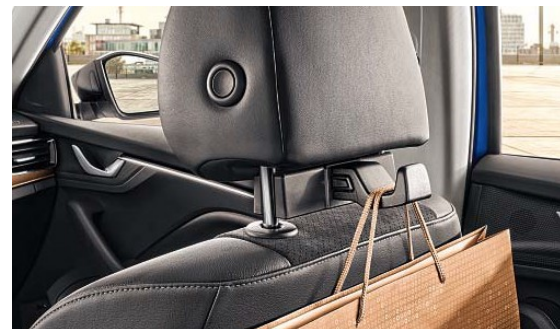

SMART HOLDER – CLOTHES HANGER

The clothes hanger, which can be mounted on the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

SMART HOLDER – MULTIMEDIA HOLDER

The holder for an external device, which can also be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

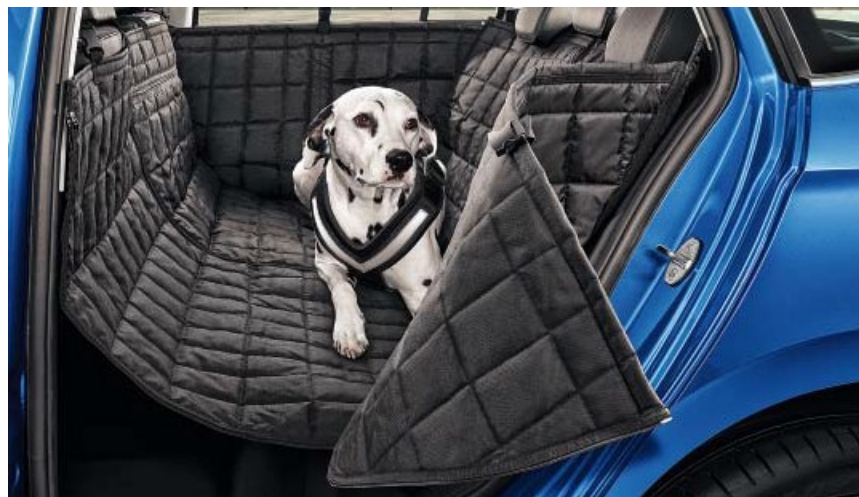

SMART HOLDER – HOOK

Handbags or backpacks don't have to take up space on the back seats. Hang them from the smart holder hook fixed to the front headrests.

CHILD SEAT

The Kidfix II XP child seat is, in addition to Isofix belts, attached using the Top Tether system on its rear side. The seat has three adjustable positions (sitting, resting and lying) and is designed for children from 9 kg up to 18 kg.

DOG SAFETY BELT / BACK SEAT PROTECTION

If one of your usual passengers is a dog, we recommend equipping your car with a special safety belt (size S - XL). You will also appreciate the back seat protection.

ALL-WEATHER FOOT MATS – RED

The rubber foot mats will help you keep the car interior clean. They can be easily taken out and emptied or wiped clean.

BICYCLE RACK

You can securely attach the lockable bicycle rack with carbon/aluminium profile onto the basic roof rack.

DOOR SILL COVERS WITH BACKLIGHT

The side door sill covers with backlight and SCALA inscription, which perfectly follow the contours of the vehicle, are an original feature with aesthetic as well as practical functions.

WHEELS

18" SIRIUS anthracite brushed alloy wheels

16" ALARIS black alloy wheels

18" BLADE black matt alloy wheels, brushed

16" NANUQ silver alloy wheels (may be used with 16" snow chains)

17" STRATOS platinum metallic alloy wheels, brushed

WHEEL CARE & STYLE PACK

Car wheels are like shoes. No matter whether the “shoes” of your ŠKODA are stylish, sporty or purely functional, our WHEEL CARE & STYLE PACK (wheel covers, valve caps, safety bolts) offers a multitude of items which will make your wheels even more attractive and totally unique!

BOLT CAPS
Decorative bolt caps for wheels with and without safety bolts.

ŠKODA CARE PRODUCTS

Since ŠKODA wants to stay by your side many years after your purchase and help you with all the situations which may occur during the car's lifecycle, ŠKODA Care products were developed. ŠKODA Care products keep you mobile, provide maximum possible comfort, safety, and good value for money.

ŠKODA INSURANCE
Coming soon

ŠKODA EXTENDED WARRANTY

One of the most reassuring aspects of buying a new ŠKODA is the peace of mind that comes with our standard 5 year/150,000 kilometres warranty - A warranty that offers an exceptional level of cover.

Every new ŠKODA comes complete with the following warranty:

- 5-year (or) 150,000 kilometre warranty for all new ŠKODA cars*
- 2-year warranty for all ŠKODA Genuine Parts and Accessories
- 3-year warranty for vehicle paint defects
- 12-year warranty for through corrosion

Prior to undertaking any damage repairs to your vehicle we recommend consulting your vehicle handbook, or contacting your nearest ŠKODA dealer, to ensure the vehicle warranty isn't at risk.

Repairs can only be carried out by a member of the ŠKODA authorised network, ensuring your ŠKODA has the best possible treatment using only ŠKODA genuine parts. This also gives you the benefit of 5 years Roadside Assistance.

Certain exclusions may apply.

ŠKODA SERVICE AND MAINTENANCE PACKAGES

With ŠKODA's 12month/ 15,000km Fixed Service Intervals, you'll know precisely when it needs to be serviced. Having your ŠKODA serviced inline with the manufacturer's requirements will ensure the vehicles longevity and enhance the resale value of your vehicle. By servicing at an authorised ŠKODA Service Centre your vehicle will be looked after by fully trained ŠKODA technicians using only ŠKODA genuine parts and approved lubricants. Additionally, they have access to the latest diagnostic equipment and for late model vehicles will be able to record your vehicles service history in the factory "Digital Service Schedule" ensuring those recorded will always be available in the future.
