THE NEW ŠKODA
SUPERB
SPORTLINE
Comfort usually isn’t a metaphor for sportiness. But these two make a thrilling combination inside the new ŠKODA SUPERB SPORTLINE. Whether it’s slicing through traffic or running shopping errands, this car does it all without breaking a sweat, thanks to its razor-sharp looks and a host of sporty accoutrements, both inside and out.

That’s Simply Clever. That’s ŠKODA.
TIME TO GET SOME SPORTY CLOTHING

Elegance can also be daring. Dynamic details in glossy black design give the SUPERB SPORTLINE a vigorous attitude. The sports chassis improves the car’s aerodynamics as well as your driving pleasure.

DYNAMIC DESIGN
This car can’t be overlooked. A glossy black front grille and features to the sides of the air intake in the front bumper are accompanied by darkened fog lamps. The sporty look of your car can be underlined with exclusive 19” Supernova black alloy wheels. The top-end option features full LED Matrix headlights, which offer enhanced road lighting and a higher degree of safety.

REAR VIEW
While the ŠKODA inscription in the back declares the car’s roots, the glossy black strip between the full LED rear lights comes exclusively with the SUPERB SPORTLINE. The liftback version also features the glossy black 5th door spoiler.

BADGE
As proof of the car’s sports style there’s a badge included on the front wing fenders.
POWERFUL ENOUGH TO CARRY A LOT
The dynamic design continues inside the SUPERB SPORTLINE. The interior offers the atmosphere of the sports cockpit as well as maximum comfort. The car features among other things attractive décor and upholstery, optional Alcantara® covered ceiling in black, multifunctional sports steering wheel in perforated leather, Maxi DOT colour display and LED ambient lighting (with ten colour options) running along the inside of the interior. The optional Virtual Cockpit, which puts all the information you need right in front of your eyes, comes with specific graphics for the SportLine version.
The remarkable dashboard décor in carbon look carries the SportLine badge.

The multifunctional sports steering wheel in black perforated leather with silver stitching allows you to control the radio, phone and alternatively DSG.

Front and rear sports seats, upholstered in a combination of black Alcantara® and leather/leatherette with silver stitching, provide maximum comfort even during a dynamic drive. For that maximum sporty feeling, front seats which feature cushion depth adjustment are available as an option. The electrically-adjustable front seats with built-in memory come as standard. The distinctive and extremely durable Alcantara® upholstery is also incorporated in the door panelling.
